

Understanding the process for patients to access Purified Cortrophin® Gel

**Refer to this guide to help prepare
your appropriate patients**

When you prescribe Cortrophin Gel, be sure to let your patients know about these key steps

STEP 1

☐ Enroll in **Cortrophin In Your Corner**

- Both the prescribing physician and the patient will need to sign the Cortrophin Gel Enrollment Form
- This form initiates the *Cortrophin In Your Corner* support program in order for the patient to receive patient support services*
- The enrollment form is available through your ANI company representative or on cortrophinhcp.com. Enrollment is not required to access the medication

STEP 2

☐ Benefits investigation and prior authorization

- After you submit the enrollment form, *Cortrophin In Your Corner* will conduct the benefits investigation and fax the Summary of Benefits to your office. *Cortrophin In Your Corner* or your company representative can help with the prior authorization process if one is required
- Once the benefits investigation is complete, an ANI Nurse Access Specialist (NAS)[†] will conduct a welcome call with your patient
- Please let your patient know that they may be asked to provide additional financial information at this time in order to determine their copay options

STEP 3

☐ Appeal (if coverage is denied)

- If coverage is denied, the decision typically can be appealed. Contact your company representative or *Cortrophin In Your Corner* for appeal letter templates
- You will be asked to provide the clinical rationale to appeal the decision, including the patient's treatment history

STEP 4

☐ Payer approval

- Once approved, please have your patient call their NAS[†] at 1-800-805-5258 to discuss financial options, including copay assistance programs

*Not all patients will be eligible for all services offered by *Cortrophin In Your Corner*.

[†]NAS do not give medical advice and will direct patients to a healthcare professional for any treatment-related questions.

STEP 5

☐ Delivery

- The specialty pharmacy will reach out to your patient to coordinate delivery
- The patient will need to be home to sign for the shipment, which must be refrigerated as soon as they receive it
- Please let your patient know to expect this important call. **(It may come from an unknown or toll-free number [eg, 1-800, 1-855, etc]).** The medication cannot be sent until the pharmacy has spoken to the patient

STEP 6

☐ Virtual training and follow-up

- After the first shipment, your patient's NAS* may schedule a virtual training session to help with self-administration of their medication†
- Encourage your patients to check in with you if they have any treatment questions along the way

*NAS do not give medical advice and will direct patients to a healthcare professional for any treatment-related questions.

†Not all patients will be eligible for all services offered by Cortrophin In Your Corner.

STEP 7

☐ Refills (if appropriate)

- For refills, the patient will need to speak with the specialty pharmacy to confirm each delivery

Be sure to give your patients the “You and your doctor have chosen Cortrophin Gel” flashcard that outlines this journey from a patient perspective.

Support that is designed to help your patients throughout the treatment process

Cortrophin In Your Corner is a dedicated support program* designed to support your patients and help them access treatment. Once patients are prescribed Cortrophin Gel, the *Cortrophin In Your Corner* program can provide them with support and educational information throughout their treatment.

Our team of experts is here to help your patients:

- Obtain information on insurance coverage, including copay assistance
- Coordinate shipments with the specialty pharmacy supplying their medication (if applicable)
- Get access to useful resources and answers to questions your patients may have
- A dedicated NAS† may help them navigate the treatment process and facilitate additional virtual injection training
- A support center is available to answer their questions and provide educational information

*Not all patients will be eligible for all services offered by *Cortrophin In Your Corner*.

†NAS do not give medical advice and will direct patients to a healthcare professional for any treatment-related questions.

If your patient has any questions, they can call Cortrophin In Your Corner at 1-800-805-5258, Monday-Friday, 8 AM to 8 PM ET.
